

REQUEST FOR DAIRY EDUCATOR VISIT

The Ontario Dairy Education Program is:

- **FREE** - acknowledging Ontario's present economic climate, Dairy Farmers of Ontario offers this program FREE of charge.
- **CURRICULUM LINKED** - designed to link strands from the new Ontario Curriculum for Elementary Students (Science and Technology, Health and Physical Education) to agriculture and facets of the dairy industry.
- **INTERACTIVE** - the program elements involve interactive teaching strategies that allow students to meet many of Ontario's current educational curriculum standards.

Our full-time staff member will incorporate a variety of teaching methods during her 45-minute presentations. Discussions, co-operative learning, concrete materials and hands-on activities will be used in order to accommodate different learning needs and ability levels. **Due to the level of interactive activities within the presentation, the Dairy Educator presents to one class at a time. Please allow 15 minutes between presentations if the educator has to change rooms.**

To book your school's presentations, complete the following information.

Name of School _____

Address _____ Postal Code _____

Contact _____

Telephone _____ Fax _____

School Start Time _____ School Lunch Time _____ School Finish Time _____

Morning Recess _____ Afternoon Recess _____

Proposed Date(s) 1st choice _____

2nd choice _____

3rd choice _____

Breakdown of Presentation Schedule
